SUMMARY

I'm a Senior Frontend Developer with 4 years of experience building scalable Saas web applications. I have a keen eye for design and love building pixel-perfect user experiences. Skilled in React, TypeScript, Next.js and modern JavaScript libraries, I focus on writing clean, scalable and optimized code. Open to remote work and new challenges, always looking to push the boundaries of frontend development.

WORK EXPERIENCE

React.js Developer at Webskitters Technologies   Oct 2024 – Present

- Developed scalable and responsive web applications using React.js, Next.js, TypeScript and Material UI ensuring high performance.
- Collaborated closely with backend teams to integrate RESTful APIs, payment gateways, and WebSockets, implementing seamless functionality.
- Successfully planned, developed, and delivered client projects on time while working with large cross-functional teams.

Frontend Developer at Wit/bit   July 2020 - Oct 2024

- Developed and maintained high-quality, large scale front-end web applications using React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, and Material UI for enterprise B2B Saas platform.
- Collaborated closely with the design team to build a modular and scalable Design System using Tailwind CSS, shadcn/ui, and Storybook, enhancing design consistency, reusability, and development efficiency.
- Wrote automated tests using Playwright (E2E) and Vitest (Unit tests) to ensure application stability. Also worked with CI/CD pipelines using GitHub Actions to automate build, lint, and deployment workflows.
- Collaborated with cross-functional remote teams, including designers, product managers, and backend developers, to plan, develop and deliver features on time.
- Conducted thorough code reviews, ensuring code quality, performance, and best practices while mentoring junior developers to enhance team expertise.
- Followed Agile methodologies, leveraging remote collaboration tools like Jira, Slack, and GitHub to manage tasks, track progress, and maintain clear communication during daily stand-ups and sprint planning.

SKILLS

Languages: HTML, CSS, JavaScript (ES6+), TypeScript
Technologies: React, Next.js, Tailwind CSS, Storybook, Tanstack Query, Vite, Figma
Soft skills: Team collaboration, Remote, Communication, Design sense

PROJECTS

Phonedipo

Developed a full-stack e-commerce platform with an admin panel using React, Next.js, TypeScript, Node.js, and PostgreSQL. Actively serving real customers for buying, selling, and repairing mobile phones.

Portfolio

Developed a sleek and responsive portfolio using React, Next.js, and TypeScript to showcase my skills, experience, and projects.
